## PROJECTS

### Full-Stack HR Trivia Web Application

Dec 2025 – Jan 2026

**Tech Stack:** Vue.js, Node.js, MySQL, RESTful APIs, Agile Development

Developed a full-stack team-based trivia web application to improve employee engagement and collaboration.

- Built a responsive frontend using Vue.js and a scalable backend with Node.js and MySQL
- Implemented real-time data updates and dynamic user interactions to enhance user experience
- Collaborated in an agile environment to translate requirements into functional features
- Led product demos and usability testing, improving UX based on user feedback

### E-Commerce Web Application

Feb 2026

**Tech Stack:** HTML5, CSS3, JavaScript, DOM Manipulation, Responsive Design

Built a browser-based e-commerce web application using HTML, CSS, and JavaScript

- Implemented product listing pages and interactive UI components to enhance user engagement
- Extended a template-based design into a structured retail-style experience
- Version-controlled code using Git and GitHub with structured commits and documentation
- Deployed the application and enhanced usability through iterative feedback and testing

### Data Analyst Project

Mar 2026

**Tech Stack:** Oracle APEX, SQL, Data Visualization, Reporting and Analytics

Developed a data-driven web application using Oracle APEX to analyze business performance across payroll, employees, customers, and sales metrics.

- Built interactive dashboards for payroll, employee, customer, and sales analytics
  - Used SQL queries to extract, aggregate, and transform structured datasets
  - Transformed raw data into actionable insights using interactive dashboards and visual reporting tools
-

# PROFESSIONAL EXPERIENCE

## Front of House & Inventory Assistant

Tai Chung — Athlone, Cape Town | 2017 – 2025
